Overall Feedback

Semester 2

Date: 15/04/2024

Shiv is settled very well in the school. He is a bright and intelligent child. His behaviour has been steadily improving. He takes interest in his study and his attention span is increasing. If he starts paying more attention in the class his grades will definitely improve. We are encouraging him to take active part in class and school activities. He needs to be involved in more group activities to enhance his social communication skills. With continue support and guidance from both our ends he can do better. Thank you for your co-operation and hard work. We appreciate it.

KEEP GOING !!!!!!!
